Lea, 16 Student

Background

- Range of interests
- Strives to achieve good grades
- Continuously expand her knowledge
- Open to new learning methods
- Good attitude towards technology

Demographics

- Family Background: Middle-class
- Urban/ Suburban Area
- Language: German (PL), English, Latin
- Attends Gymnasium 11th Grade

- > Reusability

</ Implement Questions

-> Database

- Scalability/ Flexibility
- Processing Of Data Volumes
- Clarity
- Heavy Implementation

-> Code

- Easy Implementation
- Retrieveability
- Huge .py Files
- Probability Of Lag

</ 1 v n Databases

One For All

- Data Organization
- Data Integration
- Data Access

N Databases

- Database Failures
- Scalability

```
graph LR; A(( )) --> B[Password Reset]; B --> C[/>];
```

The diagram illustrates a process flow. It begins with a curved white arrow on the left side of the slide, pointing towards a central rounded rectangle. This rectangle has a yellow border and contains the text 'Password Reset'. From the right side of this rectangle, another curved white arrow points towards the bottom right corner of the slide, where a yellow closing tag symbol '>' is located.
